About Us

Founded in 1955, **DORCO** is a leading South Korean razor manufacturer shaping the shaving industry today. Our mission—to elevate every moment—serves as the driving force behind our brand's purpose and value. We strive to bring happiness and satisfaction to every moment our products are used. That's why we are dedicated to delivering the perfect shave by focusing on the smallest details and constantly seeking improvement. Today, we offer a comprehensive range of razors designed to meet diverse needs in over 100 countries worldwide. Backed by a legacy of craftsmanship and a spirit of innovation, we're confidently expanding into new markets with the ambition to be the first and best everywhere we go. In pursuing this goal, we continue to enhance each moment in our consumers' daily lives.

DORCO Technology

1) Curved Blade

Unlike welded blades, our blades are curved, allowing accurate shaving with more precision blades. This constructure allows for an open-flow blade cartridge, making the razor easier to rinse.

2) Micro Span

Thanks to our angled (not welded) blades, we can position them very close together. This 'Micro Span' technology helps reduce the amount of skin bulging between them, for a safer and smoother shave with less irritation.

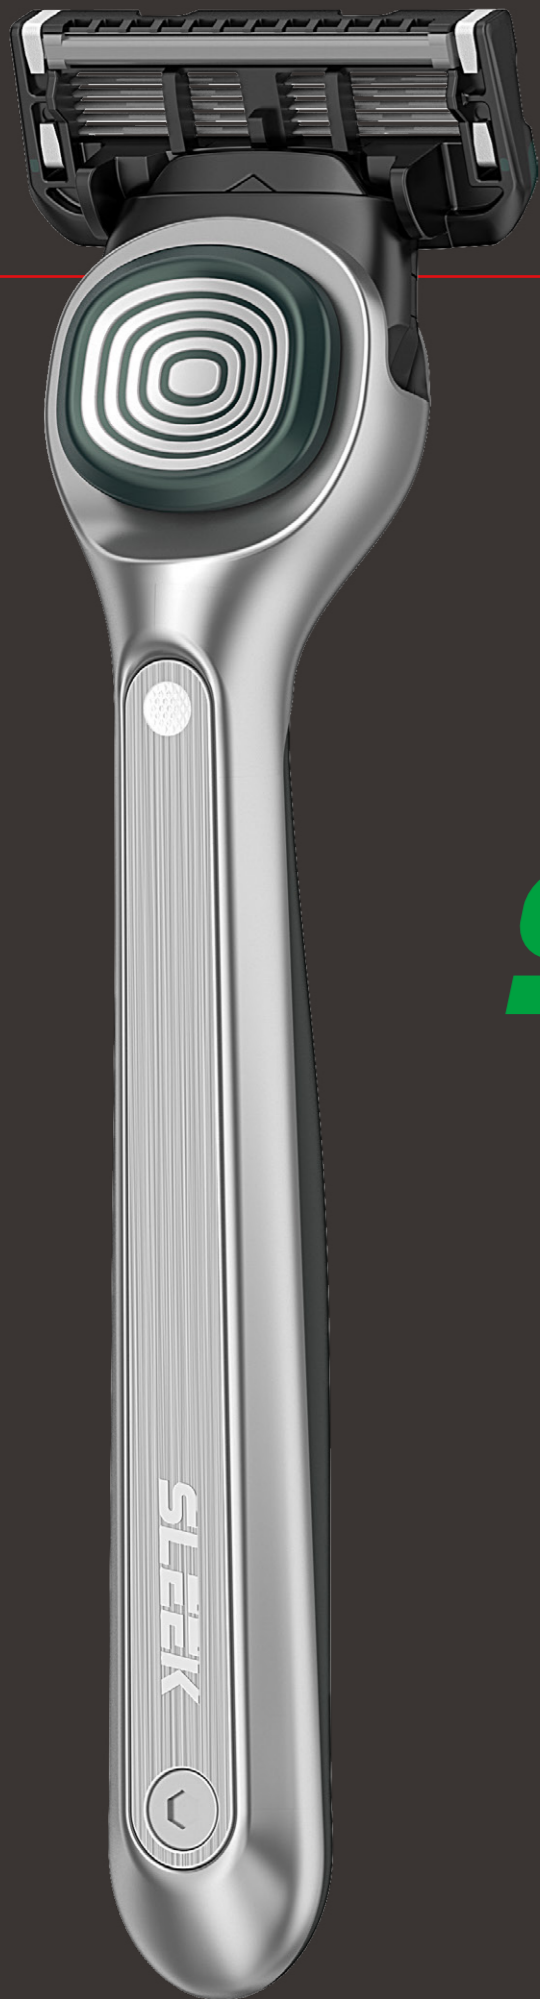

3) Common Docking System

You can try different blades by refilling cartridges whenever you want. Any of our cartridges within the same line will fit your razor handle.

4) World's First 6 Blades & 7 Blades

Micro-positioned 6 and 7 blades deliver a closer and precision shave as each blade pulls more hair through the razor.

DORCO
SLEEK

*Global Award-Winning Razor**

DORCO SLEEK is designed for everyday usability with three visual directions in mind – “Crafted with Care” “Simple Complexity” and “Lightness of Touch”

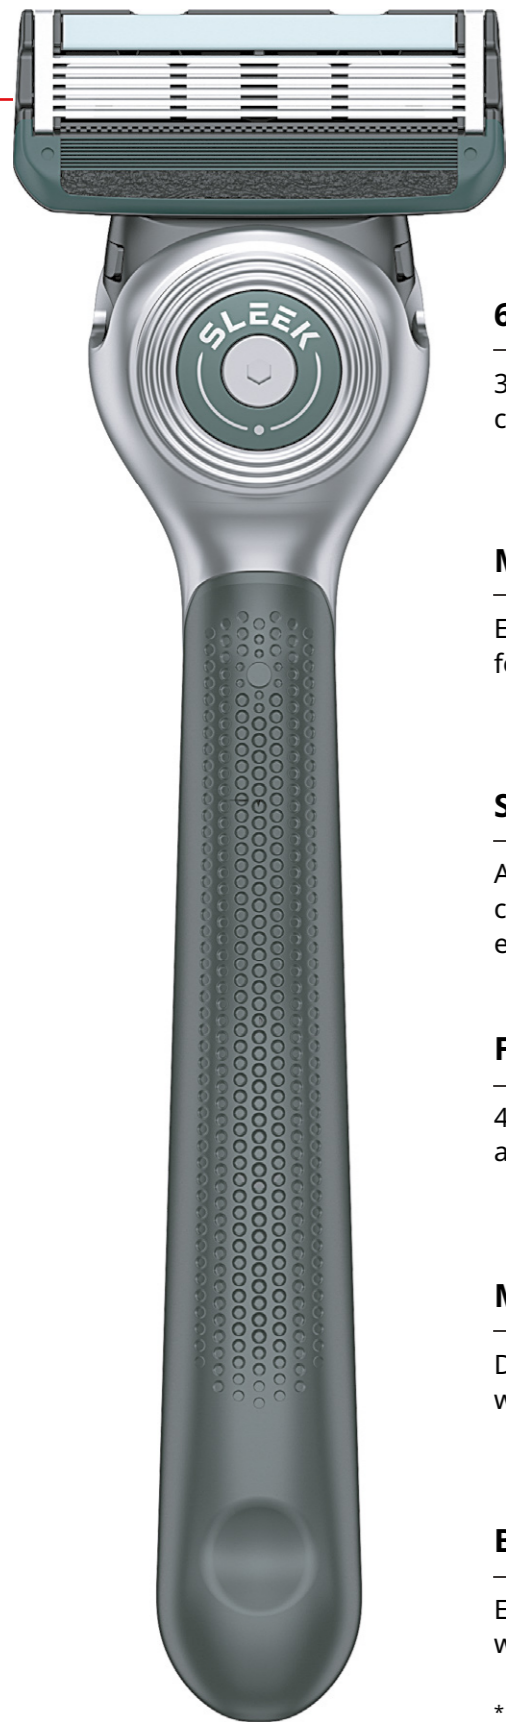

Ergonomically designed so that the index finger wraps around the neck of the handle for a stable feel. It is the perfect razor for your everyday shave.

*2026 iF Design Award for Product Design “Beauty/Wellness” Category
*2025 Good Design Award | Global Flagship Razor Development

The Refinement of DORCO's Innovation and Craftsmanship

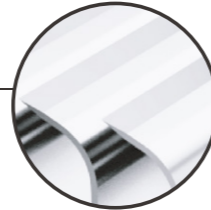

SLEEK

SXF2000

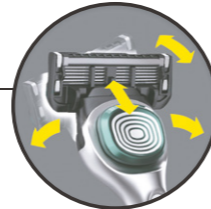

6 Patented* Super Thin Blades

30% thinner edge**, with improved blade coating for 2 times longer lasting blades.**

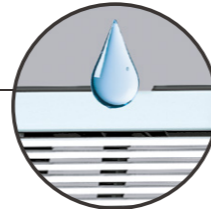

Multi-Flex Head

Enhanced 45° multi-directional pivoting for perfect contour fit

Smoothshield+ Lubricating Strip

A two-layer band with 10% more lubricating components that releases 30% more lubricants enriched with Vitamin E and Aloe Vera.

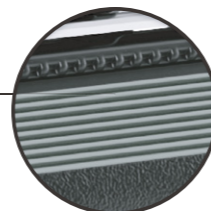

Fully Open Cartridge

40% faster** rinsing with a fully open back and side structure

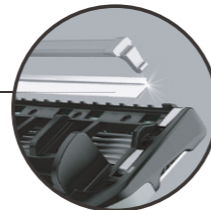

Micro-Rubber Fin Guard Bar

Distributes pressure and stretches skin while clearing debris

Built-In Precision Trimmer

Ensures clean lines in hard-to-reach spots without nicks or cuts

* Patents KR: 10-2482633, 10-2211395, 10-2211399 US: 11660770
